List of Seminars Organized by Accelerator Division, ESS

	Date	Speaker	Title	Link
1	05-July	Emanuele Laface	Crystal Collimation in Modern Accelerators	
2	22-Oct	Rebecca Seviour		
3	29-Nov	Ryoichi Miyamoto	Early Performance of LHC: Optics and Lumi-Monitor	
4	02-Dec	Steve Holmes	Project-X: A High Intensity Proton Source at FermiLab	http://goo.gl/drz7x
5	10-Dec	Natalia Artego Marrero	Single-Proton Irradiation of Living Cells	
6	17-Dec	Wolfgang Ackermann	Numerical Modeling of Electromagnetic Fields	
7	17-Jan	Thomas Kroyer	Selected RF and Instrumentation Applications at CERN and Thin Film Technology for Solar Energy Systems at Fraunhofer ISE	
8	28-Jan	Thomas Shea	SNS Target Imaging and Related Developments	
9a	15-Feb	Stephen Molloy	Higher Order Modes in Accelerator Cavities	
9b	15-Feb	Mikael Eriksson	Coupled Bunch Instability Fighting in the MAX IV Accelerators	
9c	15-Feb	Åke Andersson	Higher Order Mode Damping in the MAX IV Storage Ring Cavities	
10	15-Mar	Pierre Bonnal	Project Management at CERN, Lessons Learned from the LHC Project	http://goo.gl/L1ZlG
11	14-Apr	Christine Darve	Helium and Large Scale Cryogenics in Accelerator Sciences	
12	19-Apr	Jose Dedic	Timing Systems	
13	09-May	Mikael Klein Velderman	XLPM – The Methodology to Support Project-based Organizations
